

We are 100% OPEN and SERVING our clients. We continue to safely provide the needed construction and maintenance services required to keep our region's critical infrastructure and essential needs up and running – keeping the power on, water running, maintaining critical manufacturing and energy facilities, keeping the supply chain moving. We are doing it safely.

Being around for 104 years, we have weathered many storms; world wars, natural disasters, pandemics and recessions. To get through these challenging and uncertain times, we are guided by our leadership and core company values – SAFETY, QUALITY, SERVICE, INNOVATION.

During the Coronavirus (COVID-19) pandemic, we are firmly committed to continuing our services to meet the needs of our clients, while continuing our unwavering focus on employee and client's well-being and safety.

We continue to monitor the CDC, MN and WI Departments of Health for daily updates. In addition to our in-house Pandemic Plan, we are modeling our policies and procedures on the guidelines from the CDC, Associated General Contractors (AGC) and our union trade partners.

On our jobsites

Jobsite Risk Assessment – scope of work, crew size, proximity, break areas, washing stations.

Screening of employees on a daily basis – monitor for symptoms, temperature checks.

Cleaning – increasing the frequency of cleaning our sites.

Meetings – encouraging virtual meetings and when in person meetings are necessary, following social distancing guidelines.

At our offices

Effective March 16th we closed our offices to guests and visitors; call 1-800-450-5181 for assistance.

Remote work – our office employees have remote capabilities and are able to work from home.

Travel – all non-essential travel has been suspended. Encourage meetings via video calls.

Video Conferencing – employees are conducting virtual meetings through Microsoft Teams and Zoom.

Our Clients – You can be confident in our plans, policies and procedures.

Lakehead has had a Pandemic Plan in place since 2011. Our employees are trained and we have the supplies on hand to continue our services for an extended period of time.

Site specific safety plans to address the well-being and safety.

Daily reinforcement of good hygiene – cover when coughing or sneezing, regular hand washing, not sharing tools, disinfecting surfaces, etc.

PPE – gloves appropriate to task, eye protection and respiratory masks.

Managing sick employees – monitor crews daily, send sick employees home immediately and allow them to return based on CDC guidelines.

Please feel free to contact any of your Lakehead Constructors contacts for additional information.

We will get back to our way of life....wash your hands, mask-up, watch your distance and smile.
